CIRCULAR **LEARNING MANAGEMENT SOFTWARE (LMS) FOR CLASSES XI AND XII**

Dear Parents,

1. We strongly believe that Classes XI and XII play a pivotal role and are building blocks of career of a student. It has always been school's endeavor to provide all possible support and guidance to the students for excelling in CBSE and various competitive examinations through Mission N-Mole as per their career choice.

2. In this direction, it gives me immense pleasure to inform you all that the School has invested in a Learning Management Software (LMS) specially designed and customized for the students of AFBBS to help in preparation for NDA, JEE-M, JEE (Adv), NEET-UG, CLAT, CUET & other associated undergraduate competitive Entrance Examinations. This Platform/Software will be available to each student of XI and XII completely free of cost.

3. Some of the salient features of the LMS are described below: -

(a) Each student will be provided a separate Login-ID and the student will have full access to the software during their entire tenure of XI – XII.

(b) Students must not share their personal login credentials with anyone else and this will be considered as breach of data and trust of school. Additionally, in the event of sharing of credentials, it would not be tenable to track/assess the actual performance of the student. Strict action will be initiated against students found sharing of credentials.

(c) The students can access learning material/content, recorded lectures and question banks for all the above-mentioned competitive exams. The content will be in the form of High quality 2D, 3D interactive content, labelled 3D models and 3D immersive videos.

(d) Students can use the software for as many competitive exams as they want.

(e) There is facility for 02 mock test for each Chapter along with mock test papers for full syllabus, pre-built tests with advanced analysis and pre-built interactive lessons. Students can practice questions with concept tagging and difficulty level adjustment according to student ability and preparations

(f) Virtual score improvement analysis which would include key features: -

- Time Management
- Attempt Strategy
- Academic Weaknesses
- Critical Exam-taking skills, speed, accuracy, stamina and attempt planning.

4. The programme will be implemented with effect from 01 Jun 2024, so that the period of summer vacation could be utilized judiciously by the students and suggestions could be obtained from the end users towards its improvement. Towards this, students need to fill a google form at the link given below and submit their response latest by **31 May 24**. Link for google form <https://forms.gle/54Bp2fRsvTaxKAkf6>

Warm Regards
