

Nature Appreciation Club

**"TREASURING THE
BEAUTY OF NATURE"**

Falling in love with nature is the best fall we could ever have. Marking the formation of a new club- **NATURE APPRECIATION CLUB**, many of us are already on the road to experience what mother Nature has store for us.

The **club was formed on 8 January 2022.**

The enthusiasm of the students who were willing to be the part of the club was from all the classes (6-12th) which was a bright ray of hope and happiness, being the club's first year.

A total of 21 members from all the classes coming forward was a bubble of recognition for the first president of the club - BHASHA MANDAL from 12-A.

Under the guidance and regard of Mrs. HARPREET KAUR, club's president and the fellow members are joining hands and voicing their thoughts for creating awareness and making people fall in love with the nature.

With the help of various creative activities, our club goal is to make everyone realize the true value of nature and how crucial and inseparable part of us is just nature

We will do our best to make people understand the nature because its secret is silent in front of us, we have to find it by connecting to it

"Nature Appreciation Club"

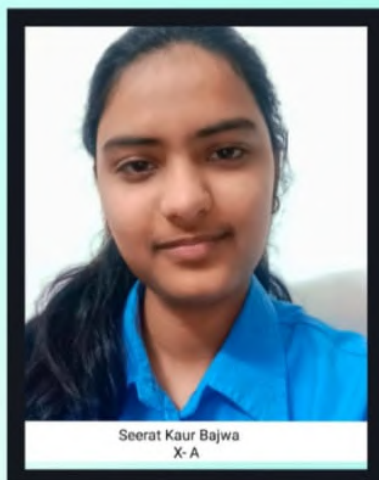

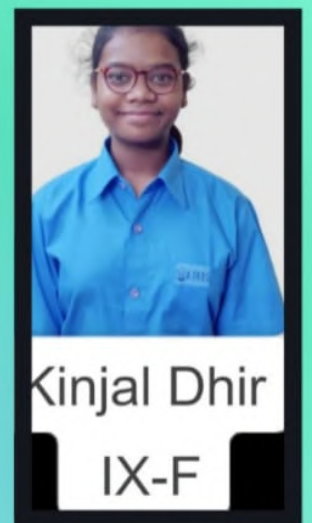

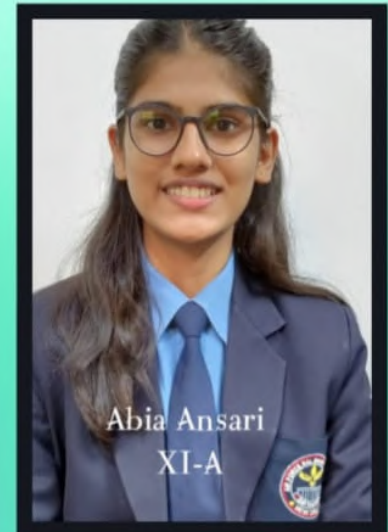

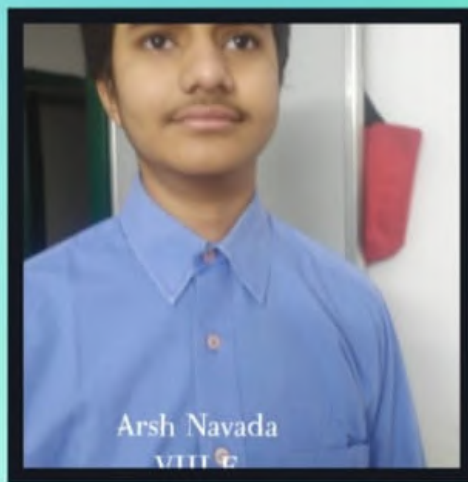

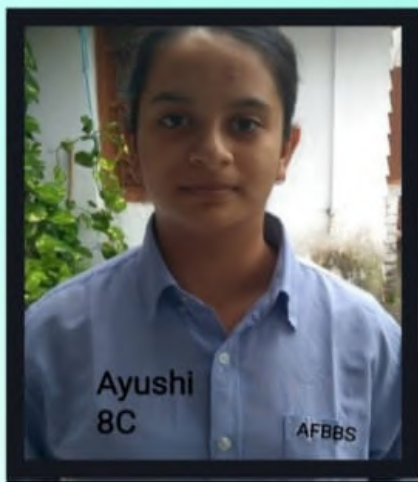

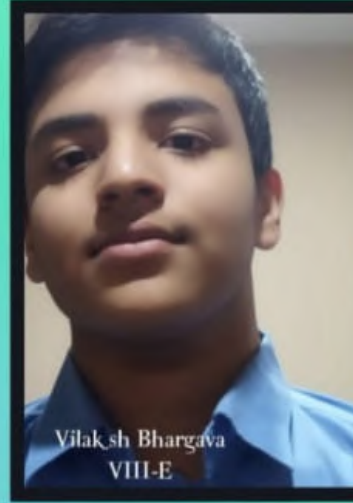

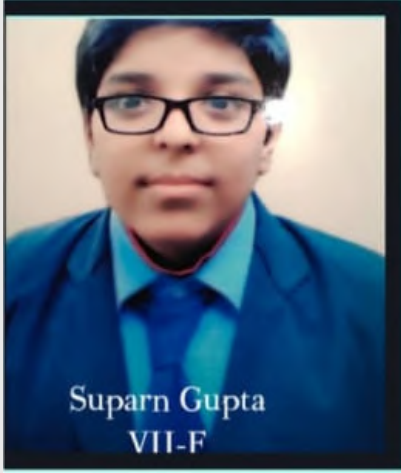

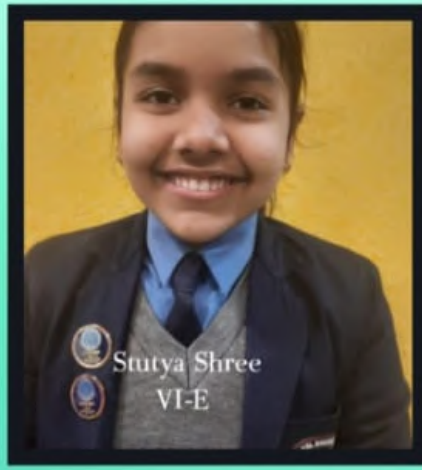

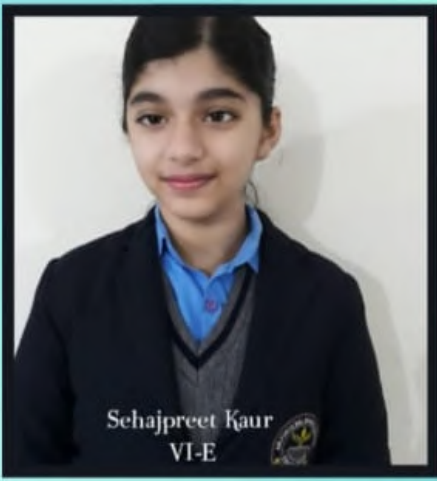

**Bhasha Mandal, 12-A
President of the Club**

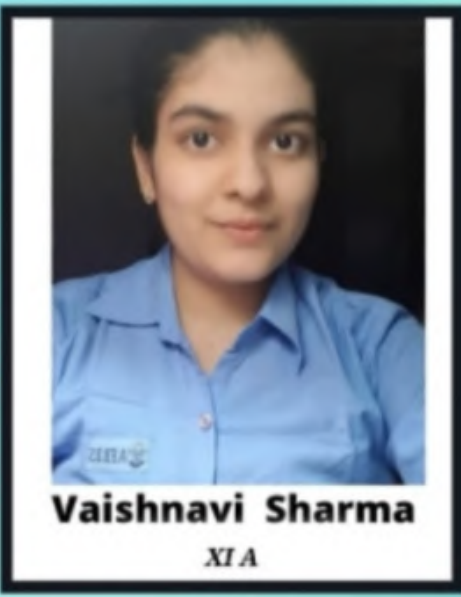

**Mrs. Harpreet Kaur
In-Charge of the Club**
