MATHEMATICS CLUB ORGANIZED EVENT 'KAUSHAL'

MATHS CLUB INCHARGE
Mr SATISH YADAV

REPORT

The mathematics club conducted interclass competition 'KAUSHAL' for students of Classes VI, VII and VIII.

Mathematics is not about numbers, equation, computation or algorithms; it is all about understanding, reasoning and applications in practical aspects.

'Kaushal' was an initiative to widen our students horizon beyond books and give them an exposure of the logic based application of the subject.

The Event took place in 2 phases.

The first phase was the objective type exam based on logical reasoning ability and mathematical concepts conducted via Google Forms.

Online Quiz was conducted in the second phase to judge the students on accuracy, speed and precision through various rounds.
