

Nature Appreciation Club

Logo Activity.

The club was formed on **8 January 2022**. The enthusiasm of the students who were willing to be the part of the club was from all the classes (6-12th) which was a bright ray of hope and happiness, being the club's first year. A total of **21 members** from all the classes coming forward was a bubble of recognition for the **first president of the club - BHASHA MANDAL from 12-A**. Under the guidance and regard of **Mrs. HARPREET KAUR**. Club's president and the fellow members are joining hands and voicing their thoughts for creating awareness and making people fall in love with the nature.

As an inauguration step and as a token of respect and gratitude towards the nature, a **logo activity** was conducted in the club to select our official logo. The innovative and visionary logos that were presented by the members was an outstanding effort.

Later on, we **decided to conduct a poll and finally the official logo was selected by the president of the club under the guidance of Mrs. Harpreet Kaur.**
The official logo was selected and released on 20th January 2022.

Nature Appreciation Club

This logo reflects our Club's Love for nature and a perfect pictorial representation of how much we appreciate it

We got commendable responses from each member of the group
